

Vivek Anand

Full Stack Developer | AI / Generative AI

+91 9207314028 | vivekanandthanuja97@gmail.com | Kochi, Kerala, India | [GitHub](#) | [LeetCode](#) | [LinkedIn](#) | [Portfolio](#)

Professional Summary

Full Stack Developer building and deploying production web applications and AI-powered systems with TypeScript, React, Next.js, Node.js, PostgreSQL, and MongoDB. Hands-on experience with REST APIs, authentication, RAG pipelines, hybrid and vector search, LLM integration, and tool calling, from backend and frontend through deployment and client handover.

Skills

Languages: TypeScript, JavaScript, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Redux, Astro, Tailwind CSS, Alpine.js, Responsive UI

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, RBAC, Drizzle ORM, Zod

Databases: PostgreSQL, pgvector, MongoDB, MySQL, Firebase

AI / GenAI: RAG (Retrieval-Augmented Generation), Hybrid Search, Semantic Search, Vector Search, Embeddings, LLM Integration, Prompt Engineering, AI Agents, Tool Calling, LLM Guardrails

Tools / Cloud: Git, GitHub, Docker, Postman, AWS (EC2), Nginx, Vercel, Netlify, Render, Vercel AI SDK, Anthropic Claude, OpenAI Embeddings, Ollama, Claude Code

Concepts: Data Structures & Algorithms, OOP, SOLID Principles, MVC

Professional Experience

Prime NRI Property Management

Kerala, India

Trainee Software Developer

May 2026 – Sep 2026

- Built the backend and AI/RAG layer of an AI customer-service platform (Next.js 16, TypeScript, Vercel AI SDK, Anthropic Claude, PostgreSQL/pgvector) in a 3-developer team.
- Designed the RAG pipeline for PDF/DOCX parsing, chunking, embeddings, hybrid vector/keyword search, and reranking; fixed a tool-calling loop re-triggering search up to 5x per query, cutting redundant retrieval calls.
- Replaced unstable LLM streaming with a generate-then-verify-then-stream architecture, improving reliability.
- Implemented a 3-layer LLM guardrail system: prompt-injection defense, jailbreak detection, and hallucination checks.
- Developed Zod-typed tool calling for lead capture and knowledge search, plus conversational memory with guest sessions, history compression, and identity handling to prevent context leakage.
- Developed the user-facing frontend (Stitch-based UI) alongside backend and RAG development.

Ernest Wells Ltd

United Kingdom (Remote)

Freelance Full Stack Developer (part-time)

Jun 2026

- Independently built and deployed a production lead-generation site for a UK accountancy firm using Astro 6 SSR, TypeScript, and Tailwind CSS.
- Integrated CloudCannon CMS so non-technical staff could manage content, plus a secure contact form with Google Sheets storage and Resend notifications.
- Managed Vercel deployment, domain configuration, launch, and client handover.

ESAF Small Finance Bank

Kottayam, India

Sales Officer

Jun 2023 – Sep 2023

- Managed customer onboarding, loan processing, and deposit sales, meeting monthly targets.

Darsana Marbles (Family Business)

Kottayam, India

Business Associate

Apr 2019 – 2026 (ongoing, between roles)

- Managed retail operations, inventory, billing, and vendor negotiations; supported the business between technical roles and training.

Selected Projects

LEO – Local-First AI Personal Assistant | Electron, TypeScript, Node.js, Ollama

Jul 2026 – Present

- Built a local-first AI assistant with LLM chat, persistent memory, provider health monitoring, and voice input.

Crownify E-Commerce Platform | React, Node.js, Express, MongoDB, Razorpay | [GitHub](#)

2024

- Rebuilt a server-rendered EJS/MVC app as a React SPA backed by a REST API, moving the view layer into a separate client.
- Built authentication, RBAC, product/order management, Razorpay payments, and an admin dashboard.
- Deployed on AWS EC2 behind an Nginx reverse proxy; later migrated to Render.

Education & Training

Brototype, Kochi | Full Stack Development Training (MERN)

Jun 2024 – Dec 2025

Girideepam Institute of Advanced Learning | B.Com – Finance & Accounting

Jun 2016 – May 2019

Leora Institution, Kochi | CMA USA – Course Completion

Sep 2019 – May 2020
